

Burak Malkoc, CE, MBA, CMA, Six Sigma MBB, S&Ei Coach

Sr. Advisor, Organizational Intelligence

“We make a living by what we get. We make a life by what we give.” – Sir Winston Churchill

As a leader, can you say with conviction that your team or organization functions with intelligence? Burak can – quickly and effectively. As an organizational intelligence expert, Burak has done important work in North America, Western Europe, and the Middle East, acquiring experiences and delivering inspired insights which make him the ideal Verus Global teammate.

From the start, Burak has functioned with a passion to serve and ensuring those around him achieve their potential. As an engineering graduate from the Bosphorus (American) University in Istanbul, he worked in infrastructure design and in construction project management. After obtaining his MBA and consulting in emerging market equity investments, he joined Lafarge group in their Paris headquarters. Along the way, he’s combined functional expertise, including in the areas of strategy, marketing, finance, and information systems. (He won’t tell you about the significant organizational successes he’s ensured his clients have accomplished – he’s too humble. Ask him when you speak with him!)

Burak plays an integral role in how Verus Global serves their client-partners. As a Master Black Belt in Six Sigma, he specializes in solving problems using appropriate data and inspired employee engagement. Because Burak has discovered remarkable ways to leverage the 24 hours in a day, he’s advancing his own intelligence by conducting scientific research in the area of organizational strategy and finance. He is currently attending DU’s Executive Ph.D. program at the Daniels College of Business.

Burak speaks French, Spanish, and Turkish fluently. His children, whom he and his wife, Emy, parent near Denver, CO, love it when he plays tour guide to remote and amazing locations around our world.
